- Bovine tuberculosis, bluetongue, rabies, malignant catarrhal fever, Paratuberculosis (Johne’s), Q fever and pseudorabies have not occurred in the previous year.
- Haemorrhagic septicaemia, Rift valley fever, Bovine viral diarrhoea, Infectious Bovine Rhinotracheitis, infectious pustular Vulvovaginitis, bovine genital campylobacteriosis, leptospirosis, trichomoniasis and trypanosomosis have not occurred during the past 6 months

4. The cattle are NLIS identified and registered on the NLIS database against the Property Identification Code (PIC) provided above for a period of greater than twelve months.
5. The cattle will be kept isolated from all other animals on the property from the time of signing this declaration until transportation to the pre-export quarantine facility.

I,(PRINT NAME), the owner of the cattle listed below and presented for export to Taiwan, declare that, to the best of my knowledge:

I give permission for the relevant State veterinary authority to disclose to Integrity Australia the herd disease information required for the export of Breeding Cattle to Taiwan.

1. The cattle have been raised for one year prior to export or since birth on a farm, which is within the jurisdiction of state or territory government authorities
2. The cattle have not been vaccinated against foot and mouth diseases, rinderpest, contagious bovine pleuropneumonia, bovine brucellosis, bluetongue, lumpy skin diseases or with any other vaccine that has not been registered for use in Australia
3. There have been no clinical, microbiological, pathogenic or parasitological evidence of the following diseases at the farm for the specified period:
 - Enzootic bovine leucosis, bovine anaplasmosis, bovine babesiosis and theileriosis have not occurred in the farm for the past two years
